In September of 2017, Artista Accessories purchased the Selley Finishing Touches line of O scale products from Bowser Manufacturing Company. We are proud to continue the long established line of simple kits, tinplate figures and various details they are famous for creating. All items listed are cast in pewter and available unpainted only. The tinplate figures are the same ones we had on our layouts of the 1950s and 1960s. They are perfect for a nostalgic look you might remember so fondly. We now have many roadside details, interior details and other items to complete any scene you might imagine. Visit our website to see all we now offer from Artista and Selley by Artista Accessories.

Artista Accessories proudly celebrates 30 Years of Producing High Quality ALL AMERICAN MADE and Hand Painted Realistic Pewter Figures and Accessories. Our figures Feature Realistic Coloring And a Flat Finish for a layout you can be proud to show off.
